# Wooden Shutters

---

There are special places in the world  
Where Revolutions began  
Belly buttons of change  
Transitions between the tiles

---

Such as the city of Timisoara  
With a square full of pigeons  
Where the people stood up against  
A ruthless communist dictator

Wooden houses with yellow shutters  
Open the shutters once again  
Into in(ter)dependency

A quiet, simple life based on  
Mindfulness and integrity  
Serving the wellbeing of mankind

Living in the quality  
Of the present presence  
The square where all is happening
